Obituary

Dr. Harry P. Jones
While preparing for an automobile ride on Sunday morning, Dr. Harry P. Jones passed away suddenly at his home on Deering Street, held Norway flat until the fifth. With two runners on Jack McCarthy lifted a three sacker that chucked up a pair of crossings and shattered West Paris' picture of victory. One other score in the sixth more deeply entrenched the locals. Only three errors were recorded and the fielding of both teams was the gilt-edged kind.

One other score in the sixth more deeply entrenched the locals. Only three errors were recorded and the fielding of both teams was the gilt-edged kind.

What Are Our Political and Social Organizations Doing?

Written by R. L. Cummings of West Paris

What are our political and social organizations doing? Years ago our politicians found it comparatively easy to control political conventions. We know they did it then and do it now. A wave of resentment (called a "movement") swept the country in the Direct Primary. Initiative, referendum and recall. Both political organizations working under cover of the will of the people; to make our government more democratic; to make it harder for the politicians to run our political machine. The officials of our State are in this contest? Do they govern for the people, or do they govern for the politicians? Do they pay those enormous salaries to run our political machine? The legislature passed the act to elect our representatives to the State House, worth millions of dollars. Do they make it possible for the politicians to get into the legislature? The legislature has refused to do so. Do they make it possible for the politicians to get into the legislature? The legislature has refused to do so.

Do they make it possible for the politicians to get into the legislature? The legislature has refused to do so. Do they make it possible for the politicians to get into the legislature? The legislature has refused to do so. Do they make it possible for the politicians to get into the legislature? The legislature has refused to do so. Do they make it possible for the politicians to get into the legislature? The legislature has refused to do so.

HIRAM

In an electric storm the past week Earl Harkin's house was hit and shook up pretty bad, but not burnt.

Ralph Knight and wife were week-end visitors at J. M. Moore and family.

Most people have started haying, but the rainy weather is against them.

Lewis Meserve is at work at Standish, hauling pulp wood with his truck.

The State has a large crew of men on the road between Hiram and Denmark.

Frank Merfield has charge over the Hiram end and Leo Smith on the Denmark end.

Augustus Ward is helping Dave Merrill in haying.

Norman Ward is at work for R. N. Lovell, haying.

There has been a number of auto accidents at the Todd Crossing. It is a very bad curve and the tourists like to knock down the fence. It seems there should be a sign at the top of the hill west of the curve.

Miss Annie Spring and aunt are at their old home for the summer.

Willis Ward is installing a DeLoe lighting system in his house and barn. Roy Freeman of Westbrook is helping him.

Freeman Durgin was home over the week-end from Bridgton, where he is a policeman.

HOME DESTROYED BY FIRE

The homestead, consisting of a bungalow and stable, owned by Mrs. Edward Tyler, was destroyed by fire early Thursday evening, during the absence of the family. The fire of mysterious origin, started in the stable loft and spread through the building to the main house. Neighbors succeeded in saving some of the furniture. Loss is several thousand dollars, with about \$700 insurance.

The Tyler place is situated in Oxford, on the Cold Water Brook road leading over Allen Hill and some years ago fire destroyed the first buildings erected by the late Edward A. Tyler of Norway. The bungalow was practically new and occupied summers by Mrs. Tyler, her sons, Elbert and Cecil, and the latter's wife and baby.

The family lost heavily in the fire at South Paris, as most of their goods were in the Maxine Block, which was practically destroyed.
